

*The McChord Way...Excellence, Innovation, Respect*

62 AW/CC Roll Call

7 Oct 2016

## Team McChord,

I'm sure most of you have heard about our Unit Effectiveness Inspection (UEI) Capstone coming up in December. The UEI will inspect how effective each unit is in four major graded areas (MGAs); Managing Resources, Leading People, Improving the Unit, and Executing the Mission. The UEI is a continuous improvement process that is tracked and monitored using MICT; however, an important part of the Capstone inspection is the UEI survey. While Col Phillips and I encourage all of you to resolve issues using your chain of command, this survey is an opportunity for you to highlight things that are going well or things that might not be working for your organizations. The survey is open to all Airmen, civilians, contractors, and spouses. We encourage all of you to participate in this survey to help us highlight the things that are going well and things we need to work on. Your responses will help us ensure we are doing the best job possible executing our missions of **"Delivering Safe and Reliable Global Airlift"** and **"Ensuring the Operational Readiness of a Joint Power Projection Platform and Providing Air Power Anywhere Around the Globe."**

### UEI Survey Notes from AMC/IG

1. *Airmen are encouraged to provide the most candid answer possible as it will make the results more meaningful.*
2. *The survey is 100% anonymous and all information is protected within IG channels; therefore, nothing is released outside of AMC/IG or the Air Force Inspection Agency (AFIA).*
3. *Honest and sincere answers strengthen the foundation of our Air Force Inspection System and ensure its success. This is an ideal opportunity to tell AMC/IG your perspective about any issue(s), to inform us about what is going well, and to highlight what may not be working within some organizations. We will follow up on many of these issues during our on-site visit.*
