

62 AW/CC Roll Call

28 August 2013

### Team McChord,

Labor Day is almost here and we are in the home stretch of the **Critical Days of Summer (CDS) Campaign**. Thanks to your outstanding efforts, this has been the safest overall AMC CDS since 2008! Part of being safe means making good decisions about alcohol. We have recently seen an increase in alcohol related incidents and all of us should be concerned. Drink responsibly, watch out for each other, and always designate a driver. Call Airmen Against Drunk Driving at (253) 982-AADD (2233) if you need a ride home. Don't let a night out with friends end in disaster for you or your wingman. Remember: **PERSONAL RESPONSIBILITY!**

### Operation DEEP FREEZE

Last week 24 Airmen from the 62 AW and 446 AW flew from JBLM to McMurdo Science Station in Antarctica, delivering vital personnel and supplies to one of the coldest, most isolated spots on the planet. During WinFly the sun never shines on Antarctica, so our crews use Night Vision Goggles to land on a runway carved out of ice. A few months ago we used this capability to medevac 2 scientists from Antarctica when no one else could reach them. This is just another example of the amazing things Team McChord Airmen are doing every day...Well Done!

### Message from the CSAF

The Chief of Staff of the Air Force recently released a document called **Global Vigilance, Global Reach, and Global Power for America**. It does an excellent job of explaining what the Air Force provides our nation, and how we fit in. Take a few minutes to read it, I think you'll be surprised how many times we're mentioned. From providing tsunami disaster relief to taking part in Operation ODYSSEY DAWN, Team McChord Airmen have been on the frontlines, delivering **Rapid Global Mobility** for America!
