62 AW/CC Roll Call

1 October 2014

Team McChord,

Recently, Gen Welsh and Chief Cody communicated some changes to our Enlisted Evaluation System (EES). With those changes set to roll out soon, I'd like to reinforce that **job performance** is still the bottom line. Whether we're talking about static closeout dates, stratification adjustments, or tweaks to our Weighted Airman Promotion System (WAPS), how well we assess Airmen's performance in current duties as well as how well we measure potential to serve in the next higher grade is of the utmost importance. Emphasizing performance is the right thing to do - for our Airmen and for our Air Force!
