

The McChord Way...Excellence, Innovation, Respect

62 AW/CC Roll Call

8 Jan 2016

Team McChord,

Happy New Year! Thank you for ending 2015 on a high note...it was a great year! We had a safe and successful 2015 because of your professionalism, dedication, and sacrifice. As we look forward to a successful 2016, I hope you take a second to think about how **you** will have a global impact! Team McChord Airmen make up a small percentage (about 4.5%) of Air Mobility Command's 126,000 Active Duty, Civilian, Air National Guard, and Air Force Reserve Airmen, but we have a huge footprint. Do you know that an AMC aircraft departs from somewhere in the world every 2.8 minutes of every day? It's a great statistic, but it doesn't happen without **every single one of you** playing a part! So what will **you** do this year to support our worldwide mission?

Team McChord owns over 20% of the C-17s that are airlifting cargo in support of Overseas Contingency Operations, providing aeromedical evacuation, and flying humanitarian relief missions across the globe! Will **you** fly one of the 514 AMC takeoffs that will happen tomorrow? Are **you** the one working nights to keep our jets in great working order? Are **you** one of our hundreds of Team McChord Airmen deployed right now? Are **you** the one providing medical care, working in command post, teaching life support classes, staffing the aerial port, or providing intelligence updates? **The success of Team McChord, AMC, and the Air Force depends on you!** Don't ever forget how important your job is! The next time you hear about a great Team McChord, AMC, or USAF accomplishment, try to trace it all the way back to the part **you** played to make it happen. Every day, I get to see how **all of your work comes together to accomplish our mission**. I am proud of the amazing Airmen we have at Team McChord, and the role **you** play to make our Air Force the best in the world!

On the Horizon...

MLK Day [18 Jan]

Federal Holiday

Team McChord Awards Luncheon [28 Jan]

RSVP by 25 Jan
