

Airlift Excellence...Right Here...Right Now!

62 AW/CC Roll Call

12 December 2013

Team McChord,

*You continue to set the standard when it comes to **executing the mission!** In addition to the thousands of passengers you have flown, millions of pounds of cargo you have loaded and lifted, hundreds of home station checks (HSC) you have conducted, and thousands of days you have been away from your friends and families, you continue to deliver **Precision Global Airlift!** In fact, the amazing things you accomplish in support of Operation ENDURING FREEDOM is just the tip of the iceberg of what you do every day. Within hours of Nelson Mandela's passing, Team McChord Airmen answered the call and had several crews in the system supporting the President's trip to South Africa. Team McChord is also busy supporting Operation DEEP FREEZE. So far this season (Aug-Dec) Team McChord Airmen have flown 19 missions and airlifted 1.2 million pounds of cargo and 1,157 passengers in support of our partners from the National Science Foundation. Thanks to Lt Col Brent Keenan, Lt Col Rob Schmidt, our reserve partners, and their entire team, we have flown over 552 mishap free missions to Antarctica!*

Professionals of the Week

TSgt Peter Stein, 62 MDS

SrA Christina Aime, 62 MDS

AMC Respectful Workplace Policy Statement

I hope Wingman Day last Friday was as inspirational for you as it was for me. Part of being a Wingman involves creating a respectful work environment AND holding people accountable when they do not live up to our **Core Values**. It is essential that we all continue to promote a climate that is free from disrespectful behavior. Recently, the Commander of Air Mobility Command released a **respectful workplace policy statement** that outlines some of these expectations. You can find the memo on our 62 AW sharepoint site under the shared documents.

Breakfast with Santa!

*The 3rd annual Breakfast with Santa will be on **Saturday, 14 Dec** in the McChord Club. This great event will take place from 1030 – 1200 and advance purchase is required. Please call (253) 982-0718 for more details about how to get tickets.*
